

COORDINATEF
Boosting European AI innovation, together.

CoordinatEF supports Europe's Testing and Experimentation Facilities (TEFs), across four sectors: **healthcare, manufacturing, agriculture, and smart cities.**

What is a TEF?

TEFs are large-scale environments for **testing, validating,** and **scaling AI and robotics** with access to top infrastructure, expertise, and regulatory support.

TEFs are designed to help innovators, particularly **startups** and **SMEs**, accelerate **market uptake**, enhance **trust in AI**, and reduce **time-to-market** for safe and reliable AI solutions.

Discover what TEFs offer

Check the Catalogues

Explore the sector-specific service catalogues of the four TEFs through CoordinatEF.

Reach out to Helpdesk

Need help? Contact our Helpdesk to receive support in connecting to the right TEF.

Discover the Success Stories

Learn more about TEFs through their Success Stories and explore shared resources among the TEFs.

Join our Community to stay updated about European TEFs.

Europe now offers **4 AI Testing and Experimentation Facilities** open to all tech providers ready to validate and scale their solutions.

Explore the services available for the four sectorial AI TEFs supported by CoordinaTEF: **TEF-Health**, **agrifoodTEF**, **AI-MATTERS**, and **Citcom.AI**.

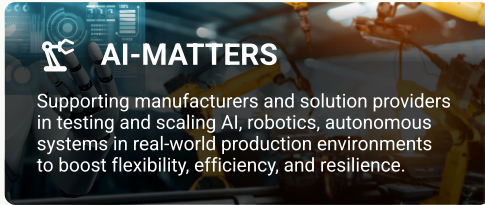

AGRIFOODTEF

Providing agrifood tech developers with large-scale testing environments to bring AI and robotics solutions from prototypes to market-ready applications in farming and food processing.

TEF-HEALTH

Helping innovators in healthcare and med-tech validate AI-driven solutions in clinical-grade environments while ensuring compliance with EU legal, ethical, and interoperability standards.

AI-MATTERS

Supporting manufacturers and solution providers in testing and scaling AI, robotics, autonomous systems in real-world production environments to boost flexibility, efficiency, and resilience.

CITCOM.AI

Enabling technology providers to co-create, test, and deploy trustworthy AI for smart cities, accelerating solutions that make European communities greener, safer, and more connected.

Explore opportunities tailored to your needs

Industry, SMEs & Start-ups

- **Test your AI where it matters:** Hospitals, farms, factories, cities & virtual environments
- **Speed up compliance:** Get expert support for sector-specific regulations
- **Cut risks & costs:** Detect challenges before full deployment.
- **Collaborate & grow:** Join a powerful European innovation network.

Research & Academia

- **Access world-class facilities:** From clinical labs to smart-city testbeds.
- **Bridge science & industry:** Partner with innovators & decision-makers.
- **Drive real-world impact:** Turn research into applied AI solutions.

Policy-Makers

- **Pilot policies in real life:** See how AI works in practice.
- **Shape smarter rules:** Use TEF insights to refine regulations.
- **Ensure trusted AI:** Align innovation with EU ethics & safety.
